

DAIRY QUEEN

OCEAN CITY, MARYLAND

Gillis Gilkerson completed a full interior and exterior renovation of former Gold Coast Liquors into a fast-food restaurant build for repeat client, Mike Ramadan. The brand new, 3,240 square foot Dairy Queen in Ocean City, Maryland features a drive-through, dine-in seating for customers, and a fresh, modern interior.

Led by Project Manager Jared King, Gillis Gilkerson's construction team updated the storefront, bathrooms, flooring, and parking lot in addition to completing other renovation work within the constraints of a strict timeline. "It was a great experience being able to lead the team through the construction process for this building," said King.

Prior to this renovation, Gillis Gilkerson completed renovations for owner Mike Ramadan for his liquor store located in the same shopping center on 114th street in Ocean City, Maryland. "Our company is lucky to have a plethora of repeat clients," said Dwight Miller, President of GGI. "But, to have one client we've completed two projects for in a year is truly something to be proud of."

"Gillis Gilkerson continuously finds solutions for any obstacle that comes their way throughout the construction process," said owner Mike Ramadan. "This is the second project that GGI has successfully delivered to me within the past year. They even finished the Dairy Queen in time for the July 4th weekend!"
