

SMITH DENTISTRY

OCEAN PINES, MARYLAND

Gillis Gilkerson successfully completed renovations to the dental office of Dr. Corey Smith, DDS at 11007 Manklin Creek Rd. Unit A in Berlin, Maryland. The 3,400 square foot medical-grade buildout included the installation of new dental chairs, equipment, medical gas, flooring, ceilings, plumbing and HVAC upgrades. The project tripled the size of the office and doubled the number of operatories from four to eight.

"I am pretty OCD and I was stressing before the project started," said Dr. Smith. "I am incredibly happy with the final product. Tyler Barnes was great to work with. He answered all my questions and kept me informed throughout the entire course of the build. Gillis Gilkerson made it extremely easy for me and I keep getting compliments from people all the time now."

"When there is a demand for construction services, especially in the medical field, we know how important it is to deliver a project on time and on budget," said Tyler Barnes, President, Gillis Gilkerson. "We are thrilled to be able to provide this expansion so Dr. Smith can continue to meet the growing demands of the local community."

The project was led by Barnes with onsite support provided by Superintendent Wes Reed. Clear communication and jobsite efficiency enabled Dr. Smith to begin using a portion of the space prior to the official end of construction.
