

## DAIRY QUEEN

OCEAN CITY & SALISBURY, MD | MILFORD & HARRINGTON, DE

Gillis Gilkerson takes great pride in its accomplished track record of multiple Dairy Queen establishments completed over the years. These projects extend across Maryland and Delaware, representing a diverse range of endeavors, from constructing new facilities to conducting comprehensive interior and exterior renovations, all with the shared goal of elevating the Dairy Queen experience for different customers.

Managing this expansive portfolio of Quick Service Restaurants are GGI Project Managers, Robin Steininger and Jared King, who have dedicated themselves to delivering excellence. In addition to GGI's Superintendents Chris Deinlein, Bill Schiavo and Brian Revel who played an integral role from start to finish. Every Dairy Queen location is unique, presenting distinct end products for our local communities to savor and enjoy.

Tyler Barnes, President of Gillis Gilkerson, shares his enthusiasm for this journey, stating, "GGI continues to relish the construction of these establishments. It reinforces our ability to successfully execute projects of diverse natures. The trust placed in us by our customers is a testament to our commitment to excellence."

*"Gillis Gilkerson continuously finds solutions for any obstacle that comes their way throughout the construction process. They even finished our OCMD Dairy Queen location in time for the July 4th weekend!"*
