

## DR. COREY SMITH, DDS.

BERLIN, MARYLAND

Gillis Gilkerson (GGI) successfully completed renovations to the dental office of Dr. Corey Smith, DDS at 11007 Manklin Creek Road, Unit A in Berlin, Maryland. The 3,400 square foot medical-grade build-out included the installation of new dental chairs, equipment, medical gas, flooring, ceilings, plumbing and HVAC upgrades. The renovation project effectively tripled the size of the office and doubled the number of operatories from four to eight.

Clear communication and job-site efficiency enabled Dr. Smith to begin using a portion of the space prior to the end of construction. GGI made sure to offer secure access to patients in a comfortable atmosphere without common construction issues like dust and noise interrupting the flow of business. The project was led by GGI President Tyler Barnes, with on-site support provided by Superintendent Wes Reed.

“When there is a demand for construction services, especially in the medical field, we know how important it is to deliver a project on time and on budget,” said Barnes. “We are thrilled to be able to provide this expansion so Dr. Smith can continue to meet the growing demands of our local community.”

*“I am incredibly happy with the final product. Tyler Barnes was great to work with. He answered all of my questions and kept me informed throughout the entire course of the build. Gillis Gilkerson made it extremely easy for me, and I keep getting compliments from people all of the time.”*
