

RICK DAWSON, DDS., FAMILY DENTISTRY

SALISBURY, MARYLAND

Gillis Gilkerson (GGI) proudly announces the successful completion of an impressive expansion project for Rick Dawson Family Dentistry. Situated at 835 Snow Hill Road in Salisbury, Maryland, this endeavor adds approximately 1,000 square feet to Dr. Rick Dawson's practice, unlocking the potential for expanded patient care.

Led by Project Manager Jared King, with on-site management by Superintendent Brian Mason, this construction unfolded seamlessly, with no disruption to the dental office's ongoing operations. Collaborating closely with Dr. Dawson, GGI's construction team incorporated cutting-edge technology and modern design concepts, ensuring a timely expansion of the original building. With this project's completion, Dr. Dawson is now equipped to provide enhanced services to a broader patient base.

Tyler Barnes, President of Gillis Gilkerson, shared his excitement, stating, "We are thrilled to celebrate the successful completion of this project with Dr. Rick Dawson. The expanded facility will undoubtedly allow more patients to access exceptional dental care, ultimately making a positive impact on our community."

The completion of this expansion stands as a testament to the dedication and expertise of GGI in delivering exceptional construction projects while maintaining uninterrupted services for their clients.

"I found that Gillis Gilkerson was the easiest and most informative to work with. The project manager and superintendent did an excellent job keeping the construction isolated, as our practice continued running throughout the course of the build. They addressed every concern I had about sound, dust and exposure to our patients."
