

CROWN SPORTS CENTER

FRUITLAND, MARYLAND

Gillis Gilkerson completed extensive renovations at Crown Sports Center, a hub for sports and recreation in the Mid-Shore region. Tasked with a considerable number of improvements, the team embarked on a mission to breathe new life into the center.

The project encompassed a wide spectrum of enhancements, including new turf fields, batting cages, pickleball courts, basketball courts, refreshed interiors and an exciting 'Clip & Climb' activity for the young members of the community to enjoy. The exterior received a fresh coat of paint paired with an exciting mural done by local artist duo We Are Limitless Studios, giving the center a vibrant, modern look.

Jared King, GGI Project Manager, shared his unique perspective, saying, "This project was outside my usual scope of work, and it allowed me to explore a completely different aspect of construction," explained King. "The sports equipment design and wide-ranging needs presented new challenges that expanded my experience. Witnessing the transformation of Crown Sports Center has been immensely rewarding, and I'm thrilled for the community to be entertained by all the center has to offer."

"Jared truly excelled in a job that presented somewhat new territory for GGI," stated Gillis Gilkerson President, Tyler Barnes. He made it appear effortless, demonstrating his ability to adapt and thrive in diverse construction environments. I have thoroughly enjoyed watching him expand his horizons and overcome the hurdles presented by this project."

The revitalized Crown Sports Center now offers an enhanced array of activities for the community to enjoy. Crown Sports Center hosts adult and youth sports leagues, "Crown Care" after-school programs, sports camps, birthday parties and private events. Crown Sports Center is also proud of its state-of-the-art blaster arena, arcade center and in-house eatery, Striker's Cafe.
