

MCCREADY OUTPATIENT BEHAVIORAL HEALTH CRISFIELD, MARYLAND

McCready Health, (now TidalHealth) the leading health care provider in Somerset County, established an outpatient behavioral health unit in 2017 to address alcohol and substance addictions. In 2018, Gillis Gilkerson was hired to expand the clinic space located at 201 Hall Highway in Crisfield, Maryland. The 20,000 square foot renovation doubled the department's space, and included new flooring, a new front entrance, a new handicap accessible ramp and vestibule, a new sliding door, bathroom renovations, new office, a new reception area with all-new counter tops.

As part of the renovations, the front lobby of Outpatient Services underwent a refurbishment. An accessible and energy-efficient vestibule with sliding glass doors, and a new handicap accessible entrance ramp were installed. The bathrooms were also completely redesigned to ensure that the entire area would be ADA compliant. The entrance to the Administration Services area received new flooring, fresh paint, and an overall cosmetic upgrade. Both areas are partially located in the building that originally served as the hospital, with opened in 1923.

"While construction was completed in just four months, it has been a project that was years in the making and we are very pleased to be able to deliver it to the public."
