

## POPEYES LOUISIANA KITCHEN MILLSBORO, DELAWARE

Gillis Gilkerson completed a ground-up fast-food restaurant build for repeat client, Mike Abercrombie of CATO Oil LLC. The brand new, 2,800 square foot Popeyes in Millsboro, Delaware features a drive-through, dine-in seating for 65 customers, and an interior aesthetic modeled after decoration styles unique to New Orleans, Louisiana.

Prior to this build, Gillis Gilkerson completed a number of other projects for Abercrombie, including renovations to several other existing Popeyes and Subway restaurants and Goose Creek convenience stores throughout the Delmarva Peninsula. Gillis Gilkerson also constructed the 52nd Street Assawoman Ale Shoppe in Ocean City, Maryland.

*"Gillis Gilkerson is always a pleasure to work with. They assisted with the permitting process from the beginning and have a great reputation for being on time and on budget while delivering a quality product." Delaware is growing and Rt. 113 is a hot spot making Millsboro the crossroads of Delmarva. We are excited to build a new business for locals and travelers alike."*
