

FIN CITY BREWING TAPROOM

OCEAN CITY, MARYLAND

Fin City Brewing Company is making waves with its brand new Taproom in West Ocean City. Located at 12911 Ocean Gateway in the Westside Shopping Plaza next to Hoopers Crab House, enthusiasts now have a place to go for standard and seasonal beers fresh on-tap from the fishing industry-themed beer label. The taproom contains its own small-batch brewing operation visible from the main bar area.

The +/- 1,165 square foot fit-out features custom cherry bartops and cabinetry, complete with a unique resin pour on and eighteen foot live edge slab, and a brass foot rail. The space's heavy emphasis on woodwork includes nickle gap shiplap throughout the space, cherry peg board with custom hole spacing, and cherry plywood ceiling panels. Custom finishes give the space a special feel, all the way to the cast iron bathroom sinks with brass fixtures.

Gillis Gilkerson lead the charge for the fit-out overseeing all aspects of construction from the plumbing, HVAC, framing, drywall, lighting, millwork and cabinetry to managing communications between the design team and the custom wood and casework contractors. The stunning atmosphere makes the Taproom a must-stop destination for craft beer lovers. The project was coordinated by Gillis Gilkerson Project Manager Jared King, and Superintendents Andy McKahan and Brian Mason.
