

BERLIN MAIN PLACE

BERLIN, MARYLAND

Gillis Gilkerson successfully developed the medical office complex known as Berlin Main Place, located at 9950 - 9956 N. Main Street, just off of Ocean Gateway in Berlin, Maryland. What began as two + / - 10,000 square foot medical facilities, now includes five separate buildings housing a wide variety of healthcare providers, improving access to healthcare for the Berlin and Ocean City communities.

Berlin Main Place is now home to Chesapeake Health Care, TidalHealth Primary Care & TidalHealth Family Lab, DaVita Dialysis Center, Anne Arundel Dermatology, Tilghman Orthodontics, Aquacare Physical Therapy, Acadia Counseling and Wellness, Shore Foot & Ankle, Restorative Behavioral Health and Optimal Health Chiropractic.

"As developers, we have found our ability to be flexible is a considerable benefit for healthcare providers looking for medical office space. Not only can we create customized fit-outs, but we can offer space for lease, purchase or lease-to-buy options, whatever best meets the goals of the practice."
