

ENTERPRISE

SEAFORD, DELAWARE

Gillis Gilkerson completed renovation and tenant fit-out for Enterprise Rent-A-Car located at 22820 Sussex Highway in Seaford, Delaware. Gillis Gilkerson was able to transform the + / - 1,600 square foot retail space to include a main customer service and waiting area, front desk, work stations, offices and employee break room, as well as, a complete car detailing bay in the rear of the space. The unit's end-cap location creates an ideal flow for the car rental business, and renovations were able to capitalize on this set-up to prioritize the firm's needs.

"Enterprise has been very pleased to work with Gillis Gilkerson, our Project Manager Mike Truitt, and Superintendent Brian Revel. Gillis Gilkerson and its team has communicated and performed flawless throughout our Seaford branch location's construction process. We are thrilled with the final result."
