

BUFFALO WILD WINGS GO

SALISBURY, MARYLAND

Gillis Gilkerson undertook the renovation of an existing + / - 1,000 burger joint, transforming the space into a Buffalo Wild Wings GO, a new scaled-down, to-go format of the popular restaurant, offering wings, tenders, burgers, sandwiches and wraps, with sides, drinks and desserts for take-out or delivery. Located directly across from Salisbury University, and open daily from 11am - 11pm, Buffalo Wild Wings GO is positioned to be a "go"-to source to satisfy Buffalo Wild Wings cravings for college students and locals alike, day and night.

Even at a smaller scale, Buffalo Wild Wings GO still maintains its enthusiasm for sports with flat screen TV sports highlights. With an emphasis on fast service, designed for quick pick-up and delivery, the restaurant does not have a bar, or large seating areas for dine-in customers. Instead, pick-up customers can view the status of their orders on an up-to-the-minute leaderboard display that tracks the status of orders in real time.

Gillis Gilkerson made quick work of the renovation, installing the restaurant's kitchen equipment and coolers, as well as, new HVAC. Once the kitchen and mechanical systems were in order, the restaurant was spruced up with fresh paint and new ceilings.

Gillis Gilkerson Project Manager Mike Truitt oversaw the work at Buffalo Wild Wings GO, as well as, the recent ground-up construction of a full-service Buffalo Wild Wings in Milford, DE for franchise owners High 5 Hospitality.
