

TAYLOR BANK

BERLIN, MD | CHINCOTEAGUE, ONLEY & CAPE CHARLES, VA

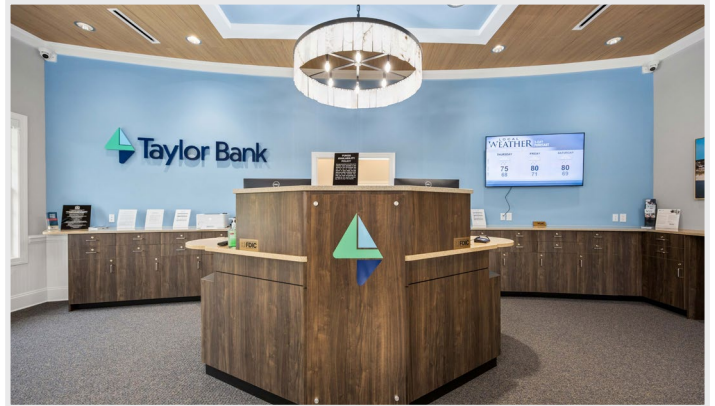

Gillis Gilkerson completed the ground-up construction of Taylor Bank's newest branch, located at 645 Mason Avenue in Cape Charles, Virginia in May 2025. The full-service branch features teller pods, a tech station, a customer hospitality area, two drive-up lanes and a covered drive-up ATM lane for customer convenience.

Gillis Gilkerson additionally oversaw the ground-up construction of Taylor Bank's Onley, VA full-service branch in 2020, and has completed substantial renovation projects for their Chincoteague, VA branch and Berlin, MD headquarters. A recent renovation to the historic Berlin headquarters exposed a brightly colored mural advertising a former general store from the early 1900's, which was able to be preserved and is now prominently featured in the executive office area.

"We value the relationship we have with Taylor Bank," said Gillis Gilkerson President, Tyler Barnes. "We are honored to be a relied-upon construction partner, offering our construction expertise and services to support Taylor Bank's growth, as they continue to contribute to the advancement and prosperity of the region".

"Thank you gentlemen. The Cape Charles branch looks fantastic. We appreciate the effort your team put into the project. We certainly picked the right partner to get it done."

M. DEAN LEWIS | CEO AND PRESIDENT, TAYLOR BANK
