

## TIDALHEALTH RHEUMATOLOGY & INFUSION

SALISBURY, MARYLAND

---

Woodbrooke Medical Complex continues to grow, offering local medical practices conveniently located stand-alone office space with ample patient parking just off Route 50 in Salisbury, Maryland. First established in the early 2000's on a 36-acre parcel, the Woodbrooke multi-building medical campus has continued to grow into a hub for healthcare services.

Joining the complex in mid-2025, Woodbrooke Building 8 is now home to TidalHealth Rheumatology and TidalHealth Infusion. The new outpatient specialty offices at Woodbrooke Building 8 have their own access from the main complex road, and are nestled between several other TidalHealth specialty centers including TidalHealth Endocrinology and TidalHealth Urology in Woodbrooke Building 7, and TidalHealth Gastroenterology at Woodbrooke Building 9.

While a growing presence, TidalHealth isn't the only medical provider expanding its footprint at the complex, with Peninsula Orthopedics, Peninsula Imaging and Chesapeake Health Care maintaining large presences, along with many other smaller firms. Another recent addition to the complex is the Offices of Jill Porter CRNP, P.A. an independent family healthcare practice occupying another new ground-up facility located at 1603 Tree Sap Court.

"Whether it is through ground-up builds or interior fit-outs, our company is always honored to play a part in bringing quality healthcare facilities to our community.", said Gillis Gilkerson President Tyler Barnes. "We know that we are creating spaces where our neighbors, friends and families will receive care, and we take great pride in doing our part to ensure comfort, convenience and value for both patients and practitioners."
