

EASTERN MARYLAND ORAL & MAXILLOFACIAL SURGERY

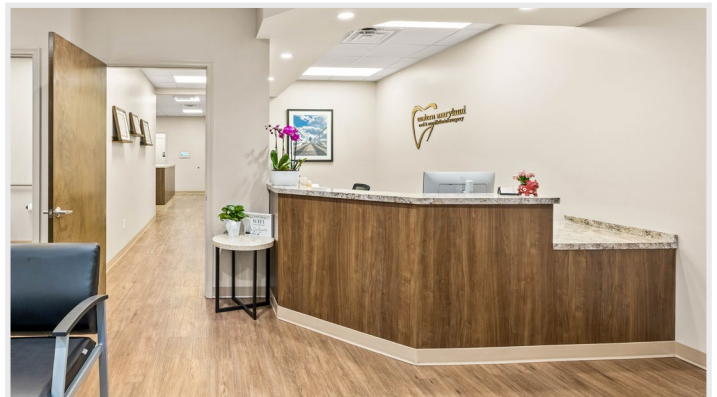

EASTON, MARYLAND

Gillis Gilkerson completed the medical office fit-out for Eastern Maryland Oral & Maxillofacial Surgery for Dr. Clay Kim, when he relocated his practice to the Achievement Park medical office complex in Easton, MD. Now located at 499 Idlewild Avenue, the +/- 3,150 square foot oral surgery center prioritizes a kind, respectful and welcoming environment so that patients feel comfortable, supported and cared for every step of the way. The fit-out combines a warm neutral color palette and bright open spaces, with state-of-the-art medical equipment to enable Dr. Kim to provide personalized treatment for each unique patient.

Eastern Maryland Oral & Maxillofacial Surgery is now able to offer wisdom teeth removal, dental implants, corrective jaw surgery, extractions, bone grafting, oral pathology services and sinus lifts procedures, all in the comfort of their conveniently located practice. The project was lead by Gillis Gilkerson Project Manager Mike Truitt and Superintendent Robert Meilhammer.

“We are committed to providing high quality care, in a kind and respectful environment. We care for each patient’s individualized needs with a focus on overall well-being.”
